Allowable Subject Matter

Claims 1- 4 are allowed.

The following is an examiner's statement of reasons for allowance:

None of the prior art, either singularly or in combination, fairly teaches or suggests applicant's claimed invention wherein applicant recites "if there is a first sub-pixel region in the cell having the first fill style, incrementing a first area of the first sub-pixel region by the difference between one unit area of one pixel and the projected area; modularizing the first area by one unit area; if there is not a first sub- pixel region in the cell having the first fill style, saving in the cell a second sub- pixel region having 1) the first fill style and 2) a second area equal to a difference between one unit area and the projected area".

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure; US Patent 6,323,922, 6,081,314, 5,781,262, and US PAP 2004/0105579.
